

Purpose:

Works on a pitcher's arm motion and wrist snap.

Setup:

The pitcher gets down on one knee about 15-20 feet from home plate. A catcher sets up behind the plate.

Instructions:

Resting on her throwing leg knee with her stride leg pointed toward the plate, the pitcher winds up and throws the ball to the catcher.

Coaching Tips:

- The pitcher's shoulders should not move at the same time that the ball is thrown.
- The pitcher should be pushing back slightly off her lead foot.
- The pitcher should be trying to throw the ball hard.
